Earlier this month, the US Centers for Disease Control and Prevention released an emergency order to stop residential evictions until the end of the year. While the order prevents landlords from issuing evictions in many cases, it does not automatically protect all tenants.

Tenants must take steps to be protected under the moratorium, including a declaration form testifying to their inability to pay.

The federal eviction moratorium also does not forgive rent or prohibit late fees. Fees owed during the moratorium will continue to add up during the moratorium.

If you are facing eviction, Legal Action of Wisconsin may be able to help you understand your rights and what you can do. Call 855-947-2529 for assistance.
