

Join Us in Making a Difference!

Dear Friends and Supporters,

The final result of the mayor's election was not what we hoped for but reflecting upon the results there is hope for the future. From the primary to the general election, we did much better than my opponent. And the final result was much better than in 2019.

Our team analyzed the results and determined that one factor that might make a difference is getting more and better information to the people of Madison *between elections*. We want to start now and not wait for the next election cycle.

We are looking for a minimum of five people in each aldermanic district who will receive periodic reports about city government and will then forward that information through social media – list, serves, and neighborhood organizations.

We will cover topics like ethics in city government, public safety, zoning issues, poverty, housing, and whatever YOU tell us needs attention.

Please let us know if you are interested in receding and forwarding these reports and if so, what neighborhood you cover.

Thanks so much for your continued support and let's start with a better city council in 2025.

Sincerely,

Gloria Reyes
